

# EU funded projects

**EADGENE – SABRE Industry Days  
Rome – June 2009**

## EU Funding

- **7th Framework Programme for RTD**
- **Various projects in areas related to Animal Breeding and Genetics funded, e.g.**
  - **RobustMilk**
  - **Quantomics**
  - **Lowinputbreeds**
  - **GM animals in food**
  - **Other:**
    - **if you inform us about EC funded projects, we will put them in a database and make them available on FABRE TP website**
    - **[Effab@effab.info](mailto:Effab@effab.info)**

## EU funding

- Upcoming call July 2009 – deadline December 2009
  - E.g. research infrastructures
    - **Existing in Europe, and to help to create in all fields of science and technology new research infrastructures of pan-European interest needed by the European scientific community to remain at the forefront of the advancement of research, and able to help industry to strengthen its base of knowledge and its technological know how**
    - **INFRA-2010-1.1.14: Animal genetic Resources Centres.** *A project under this topic should aim at integrating the key research infrastructures in Europe in this field, for agricultural research. It would cover gene banks and their related data resources, for further research and breeding (e.g. through the characterisation of genetic material).*
